A calendar month varies in length from twenty eight to thirty-one days. A mean lunar month is 29 days, 12 hours, 44 minutes, 2 seconds, and 5.24 thirds.

A year is divided into 365 days.

A solar year, which is the time occupied by the sun in passing from one vernal equinox to another, consists of 365.24244 solar days, or 365 days, 5 hours, 48 minutes, and 49.536 seconds.

A Julian year is 365 days. A Gregorian year is 365.2425 days; every fourth year is bissextile, or leap-year, and is 366 days. The error of the Gregorian com-A Julian year is 365 days. putation amounts only to one day in 3571.4286 years.

SOME FIRST EVENTS.

THE first railroad opened for the conveyance of passengers was the Darlington and Stockton (England) road in 1825.

PAWNBROKERS first established themselves in Italy as regular traders, taking pledges and advancing money on the same, in 1458.

THE ancient Romans understood the use of natural hair in the manufacture of wigs; the blonde locks of German maidens being preferred.

STEEL pens were invented in 1803, by a Mr. Wise, of England. The manufacture of them was commenced by Gillott, of Birmingham, about the year 1822.

PIECES of diamonds and rubies were first embedded in the points of pens in 1823, by John Isaac Hawkings, an American by birth, then residing in England.

PIANOFORTES were invented in Dresden, 1717. The square pianoforte was first made by an organ-builder of Saxony, named Frederica, about the year 1758.

LOOKING-GLASSES were first made in Venice in 1300. Venetian artists came to England and manufactured them in 1673, and afterward the French began to excel in them.

HATS were first introduced by a Swiss artist in Paris, in 1404, and are mentioned in history at the time when Charles VIII made his triumphant entry into Rouen in 1449.

THE first American locomotive was made in 1830, from drawings of Mr. C. E. Detmold, by the Kembles, in their shop in West Street, New York. It was named the "Best Friend."

STAMPED paper "for walls or paper hangings" was first manufactured in Holland, about the year 1555. A sort of velvet or floss, for hangings, was also introduced in Holland in 1620.

THE pioneer horse-railroad in the United States was completed in 1827, and connected the granite quarries of Quincy, Mass., with the Neposet River. The distance was three miles.

OMNIBUSES originated in Paris; were introduced into London in 1827, by a coach-proprietor named Schillaber, and they rattled through the streets of New York (thanks to Kipp & Brown) in 1828.

LATIN FOR EVERY-DAY USE.

Ab uno disce omnes, "From one, learn all." Ad finem, "To the end."
Ad interim, "In the meanwhile."
Ad libitum, "At pleasure."

Ad captandum vulgus, "To catch the rabble."
Ante bellum, "Before the war."
Aut Cæsar aut nullus, "Either Cæsar or no one."

Cæteris paribus, "All other things being equal." Cum grano salis, "With a grain of salt."

De gustibus non est disputandum, "There is no dis-

puting about tastes.'

De mortuis nil nisi bonum, "Of the dead, speak only

Dum vivimus, vivamus, "Whilst we live, let us live." Fiat justitia, ruat cælum, "Let justice be done, though the heavens should fall."

Inflagranti delicto, "Caught in the very act.' Infra dignitatem, "Beneath one's dignity." Ipse dixit, "Himself hath said it." Nolle prosequi, "Unwillingness to proceed."

Non compos mentis, "Not of sound mind."

Non sequitur, "It does not follow." Quid pro quo, "This for that; an equivalent."

THE Chinese wall is fifteen hundred miles long, and from fifteen to thirty feet high, with towers forty feet high at intervals. Six horsemen can ride abreast on the top. It has been estimated that, if all the bricks, stone, and masonry of Great Britain were gathered together, they would not be able to furnish materials for this wall, and all the buildings of London would not make the towers and turrets which adorn it.

ORGANIZATION OF THE LEGISLATURE.

The Constitution provides that members of the General Assembly shall be chosen every second year, and that their terms shall begin on the first day of Decem ber next after their election. Senators chosen from even-numbered districts at the general election in the year 1876 served for two years, and those from the odd-numbered districts for four years. At each subsequent biennial election for members of the General Assembly, one-half of the whole number of Schator will be elected for the term of four years, and the cutire House of Representatives will be elected for the term of two years. The General Assembly meets a noon on the first Tuesday of January, every second year, and at other times when convened by the Governor. The Lieutenant Governor presides over the Constant the House of Representatives cleats one of its Senate; the House of Representatives elects one of its members as Speaker. A majority of each House constitutes a quorum. On the day of meeting, the Senate is called to order at twelve o'clock, by the Lieutenant Governor, after which the Secretary of the Commonwealth presents the returns of the election of Senators: when, on motion, the returns are opened and read. The House is called to order by the Clerk, at the same hour, and the returns of the election of members are received in the same manner. After the returns are read, the roll is called by the Clerk, and the House proceeds to the election of Speaker, who must receive a majority of all the votes cast. The oath is administered by a Judge learned in the law, first to the Speaker, and afterward to all the members, each significant the oath in a book prepared for that purpose. M. A. Leary, G......3059 ing the oath in a book prepared for that purpose.

### SUCCESS IN BUSINESS.

Avoid unsuccessful men.

Don't cover too much ground.

Don't waste vitality in overwork or worry. It pays to sleep well, eat well, and enjoy life.

Make plans ahead—but change them for good reason. Make friends and keep them; but cultivate no favorites

Don't brag of what you will do-till after you have done it.

Don't wait for something to turn up—turn it up. Systematize your work—but don't make your employés machines.

Don't try to mend heavy losses by hazarding what you have saved.

Watch expenses. Neither spend a penny needlessly nor grudge a dollar when necessary.

Decide carcfully, and keep your decision to yourself. Be firm and quiet in a bargain.
